

PROSEP FILTER SYSTEMS LTD

SERIES SBC SPUN BONDED SEDIMENT CARTRIDGES

New generation spun bonded polypropylene cartridges are the best solution for sediment filtration removing rust particles, sand, silt and other particulate deposits from liquids. High-grade polypropylene fibre is resistant to many chemicals and bacteria growth. Special technology used to manufacture these cartridges provides accurate filtration ratings from 1 to 50 microns.

Features and Benefits

- * High grade pure polypropylene fibre with increased solids holding capacity
- * Improved efficiency ratings at specified micron rating
- * Filtration ratings 1, 5, 20 and 50 micron
- * Resistance to bacteria growth
- * NSF, FDA, PZH approved material
- * Working temperature: 2 - 52°C

Technical Specifications for Cartridges - Series SBC

Model SBC	Length	Diameter	Filtration	Flow Rate	Pressure Drop
	Inch	Inch	Micron	L/Min	Bar
	9 7/8	2 1/2	1, 5, 20, 50	20	0.2 - 0.4
	20	2 1/2	1, 5, 20, 50	30	0.2 - 0.4
	9 7/8	4 1/4	1, 5, 20, 50	40	0.3 - 0.5
	20	4 1/4	1, 5, 20, 50	60	0.3 - 0.5
