

# Fulflo® Filter Bags

- Polyester
- Polypropylene
- Viscose Rayon
- Nomex®\*
- Multifilament Nylon
- Multifilament Polyester

## Filter Bag and Media Strainer Series

### Fulflo® Filter Bags Provide High Quality, Consistent Filtration Performance

Fulflo Filter Bags are ideal for virtually any process filtration application requiring the removal of solids. Parker's Fulflo filter bags are manufactured and tested under the strictest quality control standards to assure consistent performance. Parker's Fulflo filter bags perform at high flow rates where liquid with viscosities up to 10,000 cps requires filtration.

XLH filter bags perform at the same efficiency as many cartridges. XLH bags are available in 1µm, 2.5µm, 5µm, 10µm and 25µm particle retention ratings.

Standard Fulflo Filter Bags are available in 1µm to 800µm particle retention ratings.

#### Applications

- Adhesives
- Beverages
- Bulk Chemicals
- Coatings
- Coolants
- Edible Oils
- Inks
- Liquid Detergents
- Paints
- Parts Washing Systems
- Petroleum Oils
- Prefilters for Finer Cartridges
- Resins
- Solvents
- Water

#### Features and Benefits

- Standard filter bags are sized to fit Fulflo® vessels and most major competitive models.
- The "C"-Style Fulflo bag features a standard, flexible, stainless steel band which positively self-seals the bag into standard Parker bag housings.
- The "G"-Style Fulflo bag features a carbon steel snap ring for positive sealing in competitive housings.
- Fulflo Quik-Seal™ option is available for both polyester and polypropylene Fulflo® filter bags.
- Bags are available with glazed surface treatment to effectively control migration of fibers into the filtered product.

#### XLH Features and Benefits

- Parker's XLH all-polypropylene high efficiency filter bags provide twice the dirt-holding capacity at a lower cost than many competitive bags and cartridges of the same micrometer rating.
- XLH bags require less frequent change out, less storage and disposal space, and are easy to install and remove.
- Each bag is incinerable (with Quik-Seal™ option or polypropylene ring), reducing filter disposal costs.
- Heavy-duty fabric handle makes removal fast and simple.
- All materials of construction are FDA listed as acceptable for potable and edible liquid contact according to CFR Title 21.

### Process Filtration Division

PROSEP FILTER SYSTEMS LTD  
Unit G19  
River Bank Way  
Lowfields Business Park  
Elland  
West Yorkshire
