

Panel and Pad holding frames

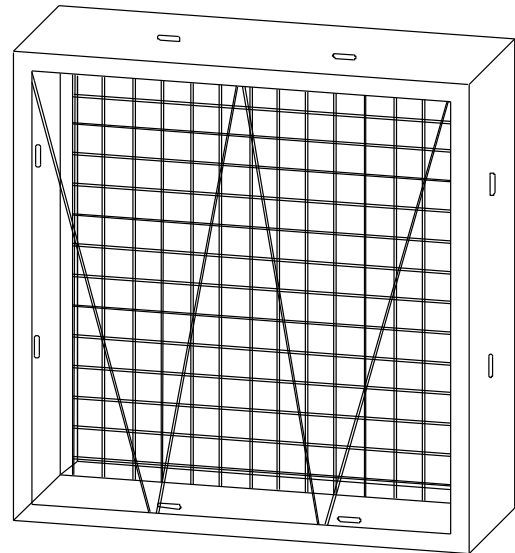

FRONT LOADING FRAMES

- Designed for front loading of bag and panel filters up to 4" deep.
- Constructed from 16 swg galvanised mild steel
- May be riveted or welded together to form pre-assembled modules.
- Neoprene rubber sealing strip fitted to sealing face.
- Any size frame available

PAD FRAMES

- Designed to accept pre-cut pads of glass-fibre, synthetic filter media or reticulated foam.
- Provide the economic solution to non standard size panel filters.
- Frame thickness from 1/2" to 2"
- All galvanised mild steel construction. Rear screen welded in place to ensure frame rigidity.
- Hinged front gate.
