

PRODUCT INFORMATION

PROSEP
FILTER SYSTEMS LTD

CHEM PRO

A simple activated carbon filter kit designed to remove taste and odour from water. The saddle tapping valve incorporates a non return valve to comply with water regulations.

The activated carbon block cartridge provides particulate removal to 5 microns (0.005 mm) and absorbs taste and odour (including Chlorine) from your drinking water.

The kit is very easily fitted and requires no cutting of your cold water copper pipe. The complete kit includes a stylish long reach chrome tap (other options are available), a wall mounting bracket, a filter bowl spanner, filter housing and cartridge, and a saddle tapping valve.

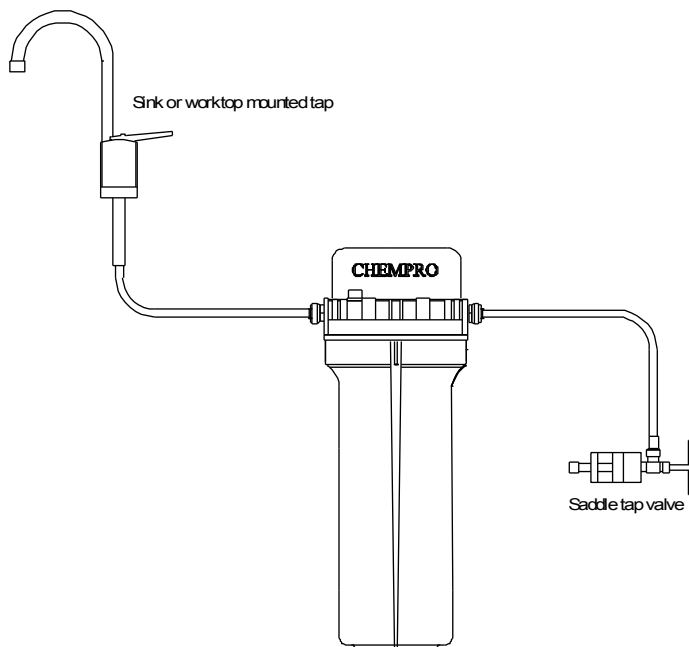

Removes

- taste & odour
- sediment

KIT PART NO:
PRODOM0001

SPARES:
Filter Cartridge
PRODOM0100

Recommended
cartridge changeout -
6 monthly
